ICT450-2024-JUL-Q2 (20 marks)

Source: ICT450-2024-JUL · page 3 · previous verdict: needs_fix

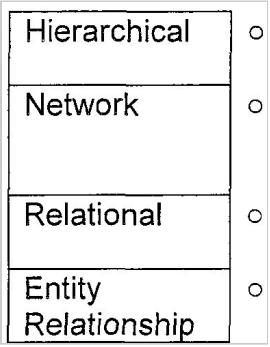

```
a) The evolution of data models has been driven by the increasing complexity of data storage,
management, and analysis needs over time. Match the suitable data models with their correct
statements.
b) The following relational schema provides a basic structure for managing pet sales in a pet
shop system. It includes customer information, pet information and purchase transactions.
PETS (PetID, Name, Species, Age, Price, PurchaseID*)
CUSTOMERS (CustomerID, Name, Address, Phone, Email)
PURCHASES (PurchaseID, CustomerID*, PurchaseDate)
Based on the relational schema above, describe TWO (2) related business rules.
c) Security is a crucial aspect of DBMS. Describe THREE (3) reasons for protecting data from
unauthorized users.
d) Briefly explain THREE (3) challenges in handling multimedia data compared to traditional
structured data.
```
