UNIVERSITI TEKNOLOGI MARA
MARKING SCHEME

COURSE	:	INTERACTIVE MULTIMEDIA
COURSE CODE	:	CSC413
EXAMINATION	:	NOV 2026 (MOCK)
TIME	:	3 HOURS

MARKING SCHEME NOTES

1. This marking scheme accompanies the CSC413 mock paper (NOV 2026). Answers show the expected marking points; all questions are deterministic and paper-derived; no lecture slides are used.

2. Marking points show the expected answer and the allocation of marks; unresolved slots would remain visible.

3. Part A = 15 x 1 mark; Part B = 15 x 1 mark; Part C = 30 x 1 mark; Part D = 4 x 10 marks; total = 100.

4. Questions: 64. Slots: 72. Placeholders: 0. No LLM call. Questions and answers are for local study use only.

5. Structure derived from 15 unique CSC413 past papers; no past-paper text is copied.

FOR MARKERS' USE ONLY

This marking scheme consists of 6 printed pages

PART A - ANSWER KEY

Q	Ans	Statement	Explanation
A1	TRUE	Path animation moves an object along a predefined route.	Path animation follows a motion path.
A2	TRUE	A prototype is an early model of a product.	Prototypes test ideas before production.
A3	TRUE	RGB is an additive colour model.	RGB adds red, green and blue light.
A4	TRUE	Sampling converts a continuous sound wave into digital values.	Sampling measures the wave at intervals.
A5	FALSE	A linear presentation allows users to choose their own path.	A linear presentation follows a fixed sequence.
A6	TRUE	Kerning adjusts the space between individual character pairs.	Kerning changes spacing for a specific pair.
A7	TRUE	A web browser displays hypertext documents.	Browsers render web pages.
A8	TRUE	Card-based authoring tools are best for messages with a clear beginning and end.	Cards support sequential navigation.
A9	TRUE	Hertz measures sound frequency.	Hertz is cycles per second.
A10	TRUE	Sans serif fonts are generally preferred for screen display.	They are cleaner at small screen sizes.
A11	TRUE	Tweening creates intermediate frames between keyframes.	Tweening fills the gaps.
A12	FALSE	Streaming requires the whole file to download before playback.	Streaming can play while downloading.
A13	TRUE	HTML is used to structure content on web pages.	HTML marks up web content.
A14	FALSE	Higher resolution always means a smaller file.	Higher resolution usually increases file size.
A15	TRUE	Chroma key compositing replaces a colour background with another image.	Chroma key removes a selected colour.

PART B - ANSWER KEY

Q	Ans	Term	Definition
B1	H	Keyframe	important frame in an animation
B2	F	Scanner	input device that digitises documents
B3	K	Storyboard	visual sequence plan
B4	I	Sampling	converting sound into digital values
B5	E	Browser	software that displays web pages
B6	B	Bitmap	image made of pixels
B7	L	MIDI	standard for musical notes and instructions
B8	N	Frame rate	frames displayed per second
B9	A	Multimedia	integration of text, graphics, audio, video and animation
B10	C	Linear multimedia	presentation without user control of sequence
B11	J	Chroma key	replacing a colour background
B12	O	Target audience	intended users of a product
B13	D	Card-based tool	authoring tool organised like pages or cards
B14	G	Vector	image made of mathematical objects
B15	M	Tweening	generating in-between frames

PART C - ANSWER KEY

Q	Ans	Correct answer
C1	C	Scanner
C2	D	Merging of media and computing
C3	B	Play while downloading
C4	D	Small strokes at character ends
C5	C	Compiler
C6	B	Non-linear
C7	D	Pixels
C8	C	Replace a colour background
C9	D	Temporary working memory
C10	B	Card-based
C11	D	An early model of a product
C12	D	Smooth jagged edges
C13	D	Important frames in an animation
C14	A	It combines visuals and sound
C15	D	Original creative works
C16	B	Musical notes and instructions
C17	B	Another resource
C18	D	The user can control content and flow
C19	B	Automatic device recognition
C20	A	A simulated environment
C21	C	Analog sound to digital values
C22	A	In-between frames
C23	A	Text, graphics, audio, video and animation
C24	D	Plotter
C25	A	CMYK
C26	D	Multimedia with hyperlinks
C27	A	Vector
C28	A	One shape into another
C29	C	Drawing input
C30	C	Assemble multimedia elements

PART D - WORKED ANSWERS

QUESTION 1

Topic: design project

A shopping complex requires a kiosk that gives customers location and retailer information.

a) State TWO important project team roles for completing the kiosk.

A project manager and an interface designer are important roles.

(3 marks)

b) Design a low-fidelity prototype for a pre-school courseware home page. The page must show topic menus, the course title and the school logo.

A simple sketch with a title, logo and large topic buttons is sufficient at low fidelity.

(3 marks)

c) Discuss TWO factors that lead to the wide use of mobile devices in games and shopping applications.

Portability and constant connectivity make mobile devices convenient for games and shopping.

(4 marks)

QUESTION 2

Topic: text

Text is an essential element in a multimedia project. Its shape, size, design, colour, arrangement and linking all affect the message.

a) State TWO reasons sans serif is mostly used for screen display and serif is used for printed material.

Sans serif is cleaner at screen sizes; serif aids reading in print.

(3 marks)

b) Describe TWO roles of hypertext in multimedia.

It links related content and supports non-linear navigation.

(3 marks)

c) Explain how text can have a massive impact on an informative multimedia project in the link and HTML context.

Clear headings and links guide users through HTML pages and make the information easier to scan and follow.

(4 marks)

QUESTION 3

Topic: authoring interactivity

A company wants an interactive product demonstration that runs on a kiosk and on the web.

a) State TWO features to consider when choosing authoring software.

Interactivity support and export formats are important features.

(2 marks)

b) Explain the interactivity level suitable for the demonstration.

A medium level with menus and buttons lets users explore without overwhelming them.

(3 marks)

c) Explain TWO authoring tool categories appropriate for this project.

Card-based tools suit structured screens; timeline-based tools suit animation and media sequencing.

(5 marks)

© Hak Cipta Universiti Teknologi MARA

QUESTION 4

Topic: web hypermedia

A museum wants a website that presents its collection and lets visitors explore related exhibits.

a) State TWO differences between linear and non-linear navigation.

Linear follows a fixed sequence; non-linear lets users choose their own path.

(2 marks)

b) Describe TWO roles of hyperlinks in the website.

They connect related exhibits and let users move between pages.

(4 marks)

c) Explain how streaming and compression affect multimedia delivery on the web.

Compression reduces file size for faster transfer; streaming lets audio or video play while it downloads.

(4 marks)

END OF MARKING SCHEME
